Mimesis International was launched in 2013 on the initiative of Mimesis Group, which includes Éditions Mimésis and Mimesis Edizioni. With a catalogue of over 5000 book titles, Mimesis Edizioni is one of the leading Italian publishing houses in the humanities. Our support of free thinking led us to open towards different and merging research fields in the human sciences, while maintaining a keen interest in philosophy.

As an academic publishing company, we work in synergy and close collaboration with several European universities and cultural centres. In this European and cosmopolitan spirit we publish our texts in English and, as in the case of scientific journals, we also work with multilingual contributions. Our pledge is to take on, in an original way, the challenges faced by today's publishing industry, in order to influence the complex cultural context shaped by new media, in an ever growing interaction among fields of knowledge.
